Keywords: Watching Movies, Activities, and English.

1. Introduction

Film is a collection of several images that are in the frame, where frame by frame is projected through the projector lens mechanically so that on the screen the image appears to come alive. Arsyad (2003). Watching is one of the activities by using the eyes to look (attention). The Ministry of Education and Culture .1944. Films can help our understanding by allowing us to hear the language exchanges made by translators.(2021). Yuksel and Travendi (2009) examined the effects of video title about reading knowledge incidental vocabulary and confirms that video is very influential on improvement student vocabulary. Watching movies is an alternative entertainment that is often chosen when feeling tired or bored with routine. Moreover, there are now many digital platforms available from free to paid ones that offer a variety of film genres and can be watched anywhere via cellphone (Ministry of Finance of the Republic of Indonesia). Movies can help us learn English. There are even some people who can be proficient in English because they only learn it by watching movies.(2022). Learning English with films is considered to be one of the fastest methods. Many people find it easy to understand just by watching various English-language series without subtitles.(2022). Watching a movie can make us who see it get carried away as if we are the characters and it can make us imagine and get carried away in the story. Imagination is the ability to think to create a mental picture of what is not visible, to be as if it seemed real. Van Alphen (2011). Watching movies can increase the power of imagination and with imagination we can think more creatively so that it can be used as inspiration in our

work. (Dina Oktaviana, S.Pd). By watching English films, you can hone your English skills, especially for speaking and listening skills. (hotcourses Indonesia)

Several factors that the film can support in learning English:

- a) Learning from movies is motivating and fun
- b) Provide authentic and diverse language
- c) Providing a visual context the visuality of the film makes it an invaluable Language teaching tool.
- d) Variety and flexibility

When we watch Asian films that are not in English, we can change the subtitles to English. Watching movies to improve English vocabulary is highly recommended to watch English-language films, namely western films that are recommended to watch. The influence of western films in improving English skills are:

1) Improve Vocabulary mastery

When we watch English films, we will hear the words that the film characters say when we see them in the subtitles, then we will know what the actors are saying and it will increase our vocabulary in English.

2) Improve English listening and pronunciation skills

When we watch English-language films, we will become more familiar with what the characters are saying in the film and it will be easy to understand the words when we hear every English we listen to and our pronunciation will be good if we learn to follow every utterance of the characters we hear. catch in the film. Based on the description above, the method of watching films for learning and enriching English vocabulary is very influential for mastery of vocabulary to support learning for bispro students at the Bengkalis State Polytechnic, and this method is very good if applied to every bispro student at home, when he is free. and need entertainment.

This method is very interesting to study because to find out what alternatives are effective in supporting and enriching the English mastery of bispro students at the Bengkalis State Polytechnic.

According to the KBBI, the word effective is related to the word effect, effective means to have an effect, is effective, works and applies. So according to this understanding, effective is something that is in accordance with our wishes. By learning English in education, the younger generation will find it easy to develop their careers. Because almost all current job professions require workers to can english.(2022).
